

HENRY GEORGE'S THEORY ADOPTED BY GEN. CALLES

In Addition to Confiscating
Enemy Holdings, Sonora
Governor Proposes Land
Taxation System.

BY MORNING JOURNAL SPECIAL LEADERS
Douglas, Ariz., April 1.—The plan of General P. Elias Calles, military governor of Sonora, to dispose of several thousand acres of land confiscated by the state from owners who espoused the cause of Diaz, was announced yesterday by Ives G. Leveier, de facto Mexican consul here, who said it had been outlined to him by General Calles.

Divided Into Small Tracts.
All lands on the west side of Agua Prieta, which are subject to irrigation from the Agua Prieta river, will be divided into small tracts and put on the market at about ten pesos per acre. The title will carry the proviso that the new owner must cultivate the land or it will be forfeited to the government. All the land included formerly belonged to the Morales and Camou estates, as did the town site of Agua Prieta, which has also been seized by the state government.

Will Build School House.
The funds obtained from the sale will be used in construction of a school house and municipal building in Agua Prieta, the consul said.

While Venustiano Carranza, head of the de facto government, has not officially approved the recent decree of General Calles, confiscating all lands from "enemies of the government," such lands have been seized and are being held by the state.

More Radical Measure.
Calles plans while in Hermosillo, for which place he will start tomorrow afternoon at 4 o'clock, to issue a more radical decree than any of its predecessors. He has in course of preparation a document announcing that state taxes will be assessed on a graduated scale. The owner of a small tract of land who cultivates his holdings, will escape lightly. The large land holder will be assessed increasingly heavy taxes, according to the acreage involved.

Tax on Unimproved Property.
The same law will apply to unimproved city property. The tax on improvements would be light but on vacant lots will be correspondingly heavy. The intention of General Calles, as he avows, is to force the breaking up of large estates, most of which are owned by families known to be inimical to the Carranza government.

After allowing several shipments of rifle cartridges to cross the border the United States authorities have again tightened their embargo on ammunition destined for the Carranza government in Mexico. Three hundred thousand rounds of cartridges consigned to General Calles are held in the local express office under heavy military guard. Although Consul Leveier has communicated with Washington repeatedly during the past ten days he has been unable to secure permission for the shipment of the ammunition to Agua Prieta.

Referee's Report Filed.
Santa Fe, April 1.—Judge John H. McFie before leaving for Gallup today to open his law office there, filed his report as referee in the case of the M. M. Bigas Ties and Stores company vs. the Arlington Land company, defendant, and Thomas D. Burns, intervenor. The case involved a claim to timber cut on 73,000 acres of what was formerly the Tierra Amarilla grant in Rio Arriba county. The referee was to find the value of such timber as was on certain lands purchased by the late T. D. Burns after he had purchased the land. The referee finds that the sum is \$15,684.33, which is to be paid the Burns estate. The testimony taken fills 310 pages of typewritten matter and it took fifteen days to hear the witnesses. Twenty days are given to file exceptions to the report and if such exceptions are filed the hearing of them will be at Santa Fe during the present month.

PATRIOTIC WEEK TO BE HELD IN FLAGSTAFF

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Flagstaff, Ariz., April 1.—Flagstaff is to have a "Patriotic Week." The people of the city have chosen the last week in May, including Memorial day, as a week to be known as "Patriotic Week," during which time the schools, churches, business houses and homes of Flagstaff will through programs and pageants, and in every other possible way seek to arouse patriotism, as it affects both the community and the state.

An executive committee composed of delegates from all organizations, affiliations and the different business concerns has already been organized and is busy working on plans.

Some of the features talked of for the week are a play, parades, programs of music and speaking by men of national fame.

Proceeding the week a clean-up campaign will make the city presentable to visitors, and during the celebration the homes and public buildings will be decorated with flags and bunting.

An effort will be made to secure railroad rates and to induce motorists to come from a distance.

The idea of a week for patriotic demonstration originated with E. S. Green, editor of the Coconino Sun.

It is proposed that the week be made an annual event if possible, and it is hoped that the idea will spread to other towns and states.

Although anything partaking of patriotism cannot fail but take on a "preparation" aspect at this time, yet the needed present revival in that direction is the only excuse and the stimulus for giving impetus to a movement destined to become permanent as a rejuvenator of civic pride and national loyalty.

COCONINO COUNTY TO ADVERTISE RESOURCES

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Flagstaff, Ariz., April 1.—Coconino county, through the immigration commissioner co-operating with the Flagstaff Board of Trade and the Williams Chamber of Commerce, is soon to issue a booklet advertising the resources and attractions of the county.

Some such a publication has been needed for some time to send out in answer to private inquiries concerning the opportunities offered in business, farming, lumbering, livestock raising and other industries that already exist or could be established at Flagstaff and Williams.

Coconino county has an area greater than the state of Massachusetts and with its sparse population has only begun to develop the natural resources.

The attractiveness of this part of the state for the tourist, and the camper will be particularly emphasized in the proposed booklet.

Mrs. Otero Irresponsible, Claim.
Santa Fe, April 1.—Elfrigo Barn, the Albuquerque attorney, and District Attorney Manuel Vigil, yesterday filed their answer to the order of Federal Judge William H. Pope to show cause why they should not be disbarred. They deny that they had anything to do with the escape of Gen. Jose Luis Salazar and declare that Mrs. Celestina Otero, who gave the most damaging testimony against them is an "utterly irresponsible, disreputable and unbelievable person."

NEWS NOTES from BY DAISY DEAN

MOVIELAND

"The Salsbury," a new picture starring Hazel Dawn, had many of its scenes staged in a large department store in New York. A place behind a counter there was made for Hazel. The picture was made at night, after the regular business of the store was over for the day, and the space ordinarily jammed with clerks and shoppers was filled up with extra people employed by the movie company.

In this way greater realism was obtained than would be possible with any studio set. In the play the heroine leaves the counter to go into a musical comedy. In these scenes appear many chorus girls from the "Ziegfeld Follies."

Hazel Dawn first won prominence as the star of the musical comedy, "The Pink Lady."

LOOKED LIKE MINERS
"SEEING THE SIGHTS,"
Harold Lockwood and May Allison and a company of twenty Metro players lost all their clothing and luggage while taking a picture in northern Maine. Fire completely destroyed their hotel, the Lodge House.

Mr. Lockwood and Miss Allison each losing three trunks full of clothes.

The company created quite a sensation when they arrived at the Grand Central station in New York, clad in rough mining costumes and heavy boots. The director declared the excellent scenes obtained more than made up for the loss and he intends to go back to Maine for his next picture.

WILLIAM S. HART GETS NEW KIND OF ROLE.
Can William S. Hart portray wild western roles only? Many think so, but these doubting Thomases will have an opportunity to prove their assertion when they see Western Bill in a forthcoming Triangle picture as a mad scientist.

In this picture Mr. Hart plays the role of a Castilian lord of the sixteenth century who is cast upon the shores of America. Eddi Markey and Dorothy Dalton are the other principals in the cast.

A veteran actor was in the studio at Metro, the other day while this Hazel Dawn picture, "Her Great Price," was occupying the floor. He talked to the star in ignorance of her identity, and remarked that he played with Mabel when she began her career twenty years ago. "She has turned forty," he added. Mabel, at the age of twenty-seven, was very pleased.

"There's Arthur Brisbane, of the New York Evening Journal, who says he's never seen one of your pictures," Theda Bara was told the other day. "Well," responded the famous "vampi," calmly, "I've never read one of his editorials."

In Miss Courtney's next Paramount photoplay, "Feathering," her sister, Miss Juliette Courtney, will take a small part "just for fun."

Curly, at large, to serve two months without pay. However, the men will be paid by the state sanitary board as range inspectors, the mounted policemen's commission being given them so as to assist in hunting down cattle rustlers.

BEER MADE AT HOME
New Discovery Revolutionizes the Beer Industry.

Channah, O., April 1.—By a new method of concentration a well-known brewer of this city has discovered a process whereby real beer in concentrated form can now be furnished. Anyone can now have to their own home a glass of beer when ever wanted at a cost of only one cent a glass. He furnishes the barley malt, hops and other necessary ingredients of beer in the concentrated form so that simply by the addition of water and a little sugar a sparkling, foaming glass of Lager Beer can be quickly prepared. It is said that this beer is far superior to the regular brewery beer, and, as a result of this discovery, thousands of people all over the country are already making their own beer at home. This new discovery will be welcomed by thousands of people living in dry territory as an account of its concentration, it can be delivered quickly and cheaply anywhere by Parcel Post. No one, whether in field, factory, farm or home, needs now to be without their daily glass of refreshing Lager Beer.

Mr. A. S. Shub, of 1191 Third street, Cincinnati, O., has written a very interesting booklet giving the history and secrets of his process, which he is mailing with a Free Trial offer to anyone sending him their name and address.

STATE COLLEGE MAN TO BE LIEUTENANT

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
State College, N. M., April 1.—Joe Quisenberry, major of the New Mexico State college cadet battalion, will leave tonight for Washington, D. C., where he will take a three months' training course preparatory to taking an examination for the commission of second lieutenant in the regular army. He will study in the army and navy preparatory school at Washington. Quisenberry is a sophomore in college and has had the required mathematics for such an office.

Mr. Quisenberry has had much experience in military work. For the past three years he has held a commissioned office in the college cadet battalion, and is first sergeant of Company B, of the New Mexico national guard. In view of this he is fitted in every way for the position he will try for.

REPUBLICANS ENDORSE ELY FOR GOVERNORSHIP

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
Santa Fe, April 1.—Ralph C. Ely, receiver of the New Mexico Central railway, has received the following telegram from Deming:

"Meeting of representative Luna county republicans yesterday adopted resolution asking you to become candidate for governor in interest of clean politics and sound, constructive legislation for New Mexico, pledging undivided and enthusiastic support of such candidacy and tendering you a campaign organization to promote it. As the republican candidate you will carry Luna county by not less than 250 majority over any candidate the opposition can offer."

JOHN C. WATSON, Chairman.
"FRED SHELMAN, Secretary."

Mounted Policemen Appointed.
Santa Fe, April 1.—Governor McDonald yesterday appointed the following mounted police: J. A. Bond and W. M. McCarty, Grant county; J. H. McHughes and Charles A. Siffring, Santa Fe county; R. G. Putnam, T. N. Helfrin, Tom Goodwin and W. B. Mc-

Hazel Dawn.

Her chief claim to distinction in the moving picture world lies in the fact that she has more than her share of good looks and winning smiles.

No Hope for National Park.

Santa Fe, April 1.—Senator Albert B. Fall writes that there is no hope for legislation at this session of congress for the creation of a national park, although he is working tooth and nail for the establishment of the Mesasero National park. As he says, this is "owing to the fact that the president is insisting that the preparation of the bill be taken up, and all other business laid aside, and that following the disposition of the preparedness bills congress take up the large appropriation measures." At that, of course, the national campaign will be in full swing and there will be speedy adjournment.

Her House in Order THE FRANTZ WAY

Thousands of households are kept clean The Frantz Way. And the expense is a trifle.

The FRANTZ PREMIER is used in America's best homes. It is the efficient electric cleaner. A few minutes' use each day keeps the household in order. Old-fashioned cleaning days, with their wearisome chaos, are but memories.

So, well-informed housewives no longer select—they DEMAND the FRANTZ PREMIER. It is as necessary as the telephone.

Connected in a moment—a touch of the nearest light button brings cleaning power. There is life! The FRANTZ PREMIER is transformed into a more-than-human servant—more expert, more willing, more tireless than the best maid.

It masters the thorough cleaning of carpets and rugs, the delicate cleaning of lace curtain fabric, and will inhale the fine dust that lurks in tufted upholstery and mattresses. It is equally adept in cleaning metal radiators, and reaching into the hundred out-of-the-way places where the good housewife senses dirt.

The Frantz Way is the clean way of cleaning—dust and dirt are banished—not merely scattered, to lodge elsewhere. And the machine weighs but nine pounds. You will marvel at the low price and economical operating expense.
